Awards

NATCO Research Award 2007 (Exploring the Ethical Complexities of Organ Tourism).

Cleveland Clinic Bernard A. Loeschen Pastoral Care Award, 2005 (teaching award).

Cleveland Consultation Liaison Society Mahmoud Parsa Award, 2003 (award for best presentation, "Shopping for a Transplant: The Dilemma of Multiple Listing and Non-compliant Patients".)

Education/Teaching Activities

1. Co-Faculty, "**Transplant Ethics**", required lecture and lab seminar for 2nd year medical students (Touro College of Osteopathic Medicine). 2011-2012. New seminar that I created using a simulated patient for the lab session.
2. Faculty & Course Director, "**Bioethics**", 3rd & 4th year medical student elective (California Pacific Medical Center). 2008-2009. New elective created with clinical and research ethics components.
3. Faculty, "**New Resident Orientation**" (California Pacific Medical Center). 2007- 2009. Medical ethics education session for incoming residents every July.
4. Faculty, "**Residents Noon Conference**" (California Pacific Medical Center). 2007 – 2010. Ten medical ethics education sessions for PGY1-3 CPMC residents each year.

Education/Teaching Activities, continued...

5. Faculty & Course Director, “**Bioethics for Chaplains**”, CPE course, (California Pacific Medical Center). 2010. A 4-week course in introductory clinical ethics, as well as special topics such as transplant ethics, EOL, pediatrics and maternal-fetal ethical dilemmas. This is a case-based course with readings.
6. Co-faculty, “**Introduction to Clinical Research**” (Cleveland Clinic/MPH 620 Cleveland State University). 2002-2006. This course includes the following: how to look for research funding, grantwriting, writing protocols and consent/assent forms, biostatistical concerns, institutional review boards, ethical issues with genetic research and placebos. I teach the session on consent, genetics and placebos.
7. Co-faculty, “**Introduction to Clinical Research and Proposal Development**” (CMED 401), 2007. I teach a one hour session on research ethics (informed consent, issues with genetics studies and stored samples). Audience: first year medical students, as well as physicians.
8. Co-faculty, “**Introduction to Clinical Medicine**” (Cleveland Clinic Lerner College of Medicine). 2003- 2006. As the Ethics Thread Leader I co-developed this course which includes professionalism and clinical ethics woven through all organ systems for MS1 and MS2 students.
9. Faculty & Course Director, “**Ethics in Laboratory Research**” (Cleveland Clinic Lerner College of Medicine). 2004 – 2006. This is a 2hr workshop on ethics and laboratory science (good research practice, collegiality, authorship, data integrity, research misconduct, whistleblowing). I created and teach this 50-minute lecture and 60-minute discussion of 3 ethics cases for Year One medical students.
10. Faculty & Course Director, “**Responsible Conduct in Research**” (Cleveland Clinic). 2005-2007. This is a 2hr workshop on ethics and laboratory science (good research practice, collegiality, authorship, mentoring, data integrity, research misconduct, whistleblowing, and research with animals). I created and teach this 50-minute lecture and 60-minute discussion of 3 ethics cases. I also created an on-line version of this course.
11. Faculty & Course Director, “**Responsible Conduct in Research for Animal Technicians**” (Cleveland Clinic Lerner Research Institute). 2006. A variation of the above course, this is a 2hr workshop on ethics specifically geared toward animal technicians who work in the vivarium. I created and teach this 50-minute lecture and 60-minute discussion of 3 ethics cases.
12. Faculty & Course Director, “**Bioethics**” (ETHC0301), 3rd & 4th year medical student elective (Cleveland Clinic Lerner College of Medicine). 2003-2007. I re-designed this elective in 2004 to include a research ethics rotation.
13. Faculty, resident, post-doc, & allied health bioethics education, Cleveland Clinic. 2002-2007
14. Biomedical Engineering bioethics education, Cleveland Clinic. 2002-2006

Education/Teaching Activities, continued...

15. Faculty & Course Director, **“Bioethics for Social Workers”**, CEU course, Cleveland Clinic. 2003-2005. I created this seminar to satisfy State licensing requirements for Social Workers.
16. Faculty & Course Director, **“Bioethics for Chaplains”**, CPE course, Cleveland Clinic. 2003-2005. I created this 5-week course as part of a national Clinical Pastoral Education Association program.
17. Faculty & Course Director, **“Research Subject Advocate Workshops”**. 2002 – 2006. One hour workshops for research nurses, coordinators and clinical investigators on various topics such as adverse event reporting, informed consent, study auditing, research subject protections.
18. Patient education: The Cleveland Clinic Heart Transplant Evaluation Process (available at <http://www.clevelandclinic.org/transplant/services/heart.htm#evaluation>)
19. Research subject educational brochure, **“Clinical Research: What is it All About?”** (Adult and pediatric versions of this brochure are available).
20. Loma Linda University Manual of Standard Operating Procedures for Studies in Human Subjects. Halstead LG and Bramstedt KA, 2001. (Separate annotated version, Bramstedt KA, 2001).
21. Total Artificial Heart Human Clinical Trial Protocol—Informed Consent, Subject Selection Criteria, Participant Handbook, Engineering Issues. Bramstedt KA, 2000
22. West Los Angeles Veterans Administration Medical Center Ethics Committee Training Handbook. Schneider PL, Bramstedt KA, 2000
23. Course development and co-faculty, **“Responsible Conduct in Research”** (Medicine M261). UCLA School of Medicine graduate/post-graduate research ethics: 1999, 2000. This is a 5-week course (five, 2 hr- sessions) covering the following topics: research with animals, human subjects research, misconduct, professionalism, and recording and reporting of data.
24. Course development and co-faculty, **“Ethics for Scientists”** (RELE 525). Loma Linda University graduate research ethics: 1998. This is a 10-week course covering general ethical issues in basic science and clinical research, including hot topics in research.
